DISCUSSION & INSIGHTS

WEBINAR SUMMARY

People who die by suicide are more likely to have seen a primary care provider in the month before death than any other health care provider. This webinar will introduce the Collaborative Care Model and its role in suicide prevention in primary care. We will cover best practices for screening, assessing, and intervening in primary care settings.

ABOUT THE SPEAKER

Dr. Pfeiffer is the Susan Crumpacker Brown Research Professor of Depression with Michigan Medicine. He directs the Program for Mental Health Innovation, Services and Outcomes (MHISO) and co-directs PRISM, both within the U-M Department of Psychiatry. He is also a Psychiatric Consultant for Collaborative Care at the Ann Arbor VA. Dr. Pfeiffer's research interests include depression care quality, peer-based interventions, and suicide prevention.
