

Henry Ford Health
(Henry Ford Genesys Hospital and Henry Ford Genesys Medical Group Covered Providers)

AMOUNT GENERALLY BILLED CALCULATION
July 1, 2024

Henry Ford Health calculates two AGB percentages – one for hospital facility charges and one for professional fees – both using the “look-back” method and including Medicare fee-for-service and all private health insurers that pay claims to the Organization, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3), 1.501(r)-5(b)(3)(ii)(B) and 1.501(r)-5(b)(3)(iii). The details of those calculations and AGB percentages are described below.

These AGB percentages are calculated by dividing the sum of the amounts of all of the hospital facility’s claims for emergency and other medically necessary care that have been allowed by Medicare fee-for-service and all private health insurers that pay claims to the hospital facility (separately for facility charges and professional services) by the sum of the associated gross charges for those claims. The only claims that are utilized for purposes of determining the AGB are those that were allowed by a health insurer during the 12-month period prior to the AGB calculation (rather than those claims that relate to care provided during the prior 12 months).

The AGB percentages for *Henry Ford Health* are as follows:

<i>Covered Facility/Provider</i>	<i>2024 AGB</i>
Henry Ford Genesys Hospital	34%
Henry Ford Genesys Medical Group - Covered Providers	59%
