

## Henry Ford Health

### AMOUNT GENERALLY BILLED CALCULATION

July 1, 2024

Henry Ford Health calculates one AGB percentage using the “look-back” method and including Medicare fee-for-service and all private health insurers that pay claims to the Organization, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3), 1.501(r)-5(b)(3)(ii)(B) and 1.501(r)-5(b)(3)(iii). The details of that calculation and AGB percentage is described below.

The AGB percentages for the Henry Ford Health hospitals are as follows:

Facility Name	AGB
Henry Ford SEMI Medical Group	58.9%
Henry Ford Brighton Center for Recovery	97.64%
Henry Ford Providence Novi Hospital	31.7%
Henry Ford St. John Hospital	33.8%
Henry Ford Madison Heights Hospital	30.5%
Henry Ford Warren Hospital	30.5%
Henry Ford Providence Southfield Hospital	30.2%
Henry Ford River District Hospital	34.9%
Henry Ford Rochester Hospital	30.0%

These AGB percentages are calculated by dividing the sum of the amounts of all of the hospital facility’s claims for emergency and other medically necessary care that have been allowed by Medicare fee -for-service and all private health insurers that pay claims to the hospital facility by the sum of the associated gross charges for those claims. The only claims that are utilized for purposes of determining the AGB are those that were allowed by a health insurer during the 12-month period prior to the AGB calculation (rather than those claims that relate to care provided during the prior 12 months).

Notwithstanding the foregoing AGB calculations, Henry Ford SEMI Medical Group, Henry Ford Brighton Center for Recovery, Henry Ford Providence Novi Hospital, Henry Ford St. John Hospital, Henry Ford Madison Heights Hospital, Henry Ford Warren Hospital, Henry Ford Providence Southfield Hospital, Henry Ford River District Hospital and Henry Ford Rochester Hospital have chosen to apply the lowest applicable AGB percentage of 30%.
